## Interesting Coat and Suit News

To the woman who cannot afford to make a mistake, quality is very important. Most ladies buy a suit and expect at least two season's wear from it, and they should not be disappointed in this expectation.

Not only is the wearing quality important but expert workmanship in tailoring, natural designers and tailors who are most careful as to quality may also be depended upon for charming, correct style.

Our label in each garment serves a double purpose in protecting you. It assures correct style design; it guarantees the service and workmanship of every garment we put out. When you buy a garment with our label in it you take no chances; the responsibility is all ours. See the Special Values we are putting out this week.

### Interesting Coat News

We are putting on sale this week some Coat values that will surely appeal to those who are looking for a good Coat value.

We have some new Coat models that we are offering this week that are extra values. Then, too, we have gone through our stock and picked out all odd Coats in different quantities. Coats that are odd and models we cannot duplicate. These we are putting out at much under the regular price.

At \$8.00 and \$10.00 we can give you some Coat models that are as good values as we have been able to put out at any time this season. These are odd Coats that are worth at least from two to five dollars more than we are offering them for at this time.

We are anxious to cut our stock down at this time, so we are putting these values out at these prices rather than increase our stock on the medium-priced models.

There is more Muslin Underwear sold this month than at any other time in the whole year. February sales are not half as much.

Our Bargain Basement has every kind that can be bought, for about three-fourths of the full value. Lots of odd lots, all well made.

Our Muslin Underwear Department on the main floor was filled with new Plume Brand Muslin Underwear this week. This is one of the very best makes on the market. Nothing poor in Plume Brand. All at popular prices—not expensive.

### Ladies' Tailored Suits

This has been by far the largest Suit season we ever have had. The demand has been greater than we had expected. We have had to be in the market oftener than usual. This has kept our stock fresh, but larger than usual.

We find now, when the demand for the medium-priced Suit is at its height that we are short of some of these sizes and colors. Rather than enlarge our stock, we are going through and picking out all odd Suits in the better grades and marking them at a much less figure to fill in the stock.

This gives the trade a chance to buy the season's best suit value at less than the market price.

The labor trouble in New York makes it impossible to get scarcely anything in Coat or Suits, so rather than keep our trade waiting for garments we are not sure to get, we had rather take our loss and give you the garments you need at less than the regular price.

### Summer Parasols and Wash Goods

This is our very best line. Never had as good an assortment before.

Graduation time is drawing near, and everyone is looking for the best that can be had.

There are lots of new things in Parasols—lots of new shapes. Some of the Japanese style that are very pretty. Parasols with silk loops are good. Umbrellas with short handles are new. These in colors are some of our most attractive kinds.

Can match your wash dress to colors in Parasols. This makes a very attractive rig that is not all loud. Just right for proper dressing.

The nicest lot of Children's Parasols that we have ever seen in any stock.

You should be thinking about your summer Wash Dresses now, for two reasons: First, the assortment. That cannot be replenished. Second, the price. Early buyers are going to be best satisfied. This means as much to us as it does to you. A satisfied customer turns us new business every time. It's easy to see how hard we should try to satisfy everyone.

Nice lot of new Voiles at 12½¢ per yard. New Reception Voiles in a large assortment of patterns. These at 25¢ per yard.

Fine Voiles and Muslins for very well evening or street dresses at 39¢ and 50¢. These we cannot duplicate. One lot is all that we will have. We parcel post free all of our mail orders.

Work submitted by the students for the exhibit is to be returned to them this week.

Unless developments make immediate action inadvisable, the city council at its regular fortnightly meeting this evening will probably be ready to act on the ordinance amendment establishing the office of deputy chief of the police department and setting forth his duties. It is quite as probable, too, that an appointment will be made at once, if the council acts favorably on the report brought in by the police and legislative committees. Members of the street committee expect to be ready with a report on the delay encountered in shipping the street department truck and if the report does not indicate that the car is to be at hand in the near future, there are members of the board who will favor another tack in the matter of motorizing the department. The resolution authorizing the street committee to make arrangements for paving South Main street and erecting a bridge over Jail branch will be given a second reading to-night.
